PROFESSIONAL SUMMARY

Self-taught Full-Stack Developer with hands-on experience building scalable web applications using the MERN stack. Proficient in React.js, Node.js, and MongoDB, with a strong foundation in modern JavaScript (ES6+). Proven ability to deliver end-to-end features, from designing responsive UIs to implementing secure JWT-based authentication and integrating AI APIs. Passionate about problem-solving and debugging, seeking a Junior Full-Stack Developer role to contribute to high-impact products.

TECHNICAL SKILLS

Frontend: React.js, Hooks, Context API, HTML5, CSS3, JavaScript (ES6+), Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, Mongoose, LocalStorage

Tools & Concepts: Git, GitHub, VS Code, CRUD Operations, API Integration, DOM Manipulation

TECHNICAL PROJECTS

AI-Powered Interview Assistant

React, Node.js, AI/LLM API, MongoDB

- Developed a full-stack platform that generates customized interview preparation plans based on uploaded resumes and job descriptions.
- Integrated third-party AI APIs to analyze text data and provide structured career insights.
- Managed application state using React Context to ensure a seamless user experience.

Full-Stack Authentication System

MERN Stack, JWT, Bcrypt

- Built a secure user authentication system implementing sign-up, login, and protected routes.
- Utilized JSON Web Tokens (JWT) for secure session management and Bcrypt for password hashing.
- Designed RESTful endpoints in Node.js/Express to handle user data and authorization logic.

Weather Dashboard

JavaScript (ES6), REST API, CSS3

- Created a real-time weather application fetching data from a third-party REST API for global cities.
- Implemented asynchronous error handling for invalid user inputs and network failures.
- Optimized dynamic UI rendering to display live environmental statistics.

Personal Expense Tracker

JavaScript, HTML5, LocalStorage

- Engineered a finance app with full CRUD functionality for tracking income and expenses.
- Implemented persistent data storage using browser LocalStorage to maintain user records across sessions.
- Developed real-time balance calculation logic using JavaScript DOM manipulation.

EDUCATION

Shri Ramswaroop Memorial University <i>Bachelor of Computer Applications (BCA)</i>	2023 – 2026 CGPA: 7.35 / 10
Avadh Collegiate <i>Senior Secondary (Class XII)</i>	2022 – 2023 Percentage: 88%
Avadh Collegiate <i>Secondary (Class X)</i>	2020 – 2021 Percentage: 77%

CERTIFICATIONS & INTERESTS

- Currently completing Full Stack Web Development bootcamp (PW Skills).
- Active contributor on GitHub with focus on open-source learning and debugging.
- Passionate about exploring AI/ML integrations in modern web architectures.
